DETAILED ACTION

1. The following communication is in response to Applicant's amendment filed on 16 March 2005.

Status of Claims

2. Claims 1, 6, 25, 43, 44, 51, and 56 are currently amended. Claims 40 and 57 are previously presented. Claims 2-5, 7-24, 26-39, 41, 42, 45-50, 52-55 and 58 are originally filed. Therefore claims 1-58 are pending in this application.

Response to Arguments

3. Applicant's arguments filed 16 March 2005 have been fully considered but they are not persuasive. Therefore claims 1-58 remain rejected as stated in the previous office action, mailed 16 December 2004, and Applicant's request for allowance is respectfully declined.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for

Art Unit: 3624

patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-4, 6-16, 21-44, 49-54 and 56-58 are rejected under 35 U.S.C. 102(e) as being anticipated by Herman et al. (hereinafter Herman) U.S. Patent 6,341,353.

Claims 1-4, 6-16, 21-44, 49-54 and 56-58 stand rejected under 35 U.S.C. 102(e) as being anticipated by Herman et al. (hereinafter Herman) U.S. Patent 6,341,353 as stated in the previous office action, mailed 16 December 2004. Applicant contests that the rejection of the claims is improper due to an ineffective 102(e) date. Herman establishes priority from both provisional application 60/111,988 as well as a CIP 08/834,027 (Martinez). The CIP, however, is not relied upon by the Examiner in the rejection. Therefore, any arguments suggesting that the rejection is improper due to Herman's, CIP to Martinez is not considered. The Examiner has only relied upon the provisional application, filed 12 December 1998, to establish priority and provide an effective 102(e) date. Continuing, the Examiner has reviewed the provisional application, and has determined that the provisional application does in fact properly support the subject matter relied upon to make the rejection as specified in the MPEP 2136.03 (III).

Any remaining claims remain rejected for the same reasons mentioned above. Therefore Applicant's request for allowance is respectfully declined.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
